

WHAT ELSE WOULD YOU LIKE TO TELL THE PLANNING TEAM?

PROVIDE MORE REC FIELDS!

To add more students you need to connect to building housing on campus. The City is way out.

Many more dorms are needed to ease rental competition in City. But they need to be inside campus, not across the street from neighbor hoods.

Realistic student population 20,000-25,000
Considering water, sewer, infrastructure, parking, traffic etc. Fire Police.

TOO MANY STUDENTS. NOT ENOUGH HOUSING. CAUSING RENT TO INCREASE

Critter Camera for Eagle Nest on big Euc Tree in Poly Canyon

We need a covered arena at the gym center because during the summer and dry season it gets really hot and sticky in the arena and the water we use to keep the dust down evaporates quickly. Also it gets sticky and muddy in the arena when it rains. A covered arena would be more functional and would look nicer.

Our building & Architecture should have a cohesive identity sometimes it doesn't feel like a college campus

CAL Poly discriminates against single housing parents!

A TRAIL SYSTEM LINKING POLY TO THE LOS PADRES N.F. A GREAT GIFT FOR ALL.

Identify housing locations
- improved traffic circulation from city streets
- identify potential staff/housing in nearby neighborhoods

Better ped-oriented sidewalks & streets to & from campus

Would be nice to have new desks in the older classrooms ✓✓

TREES Replace the hundreds of dying Eucalyptus & pine with appropriate Natives

Native tree farm at Student Farm - one cool earth.org

We have so much potential for all sustainability measures. More composting, less waste, more student groups being heard!

Net Zero Energy Campus We should be leaders in sustainability

Solve Housing Shortages (work with city of SLO... there is a lack of housing stock in SLO city paper)

more bus stops

Strongly recommend stopping current plan for housing south until a new MP can be developed. Need more responsibility of housing around the area & further out town subdivisions.

WATER Conservation!

Landscape Architecture NEEDS an outdoor laboratory like UC Berkeley has.

Solar Can Covers on all Parking Lots

To This Survey: Low student response because it's late in the quarter/semester

STOP Cutting Trees

Skateboard allowed paths for transportation A Ban won't stop it, work with us instead

Campus-wide Composting System

ADDRESS OBJECTIVE OF TRANSPARENCY
- Collaboration
- Accountability to community with diverse representation by neighborhood residents - City & SLO
- Community Developer Ref.

KCPR should stay weird

More coffee carts on campus ✓✓

Reduce roads & create a more ped/bike friendly central campus

Break the car culture before and on campus

STORM WATER MANAGEMENT

Local Agriculture & Produce should be championed through Campus Dinings

Let's eat the food that Cal Poly grows! ✓✓

More interdisciplinary interaction between campus colleges & students

Students on City Council!

More housing/ remodeled housing for freshmen etc.

Cal Poly should set the example on environment for SLO and CSU

How Will A Vision 2022 M.P. Affect City Infrastructure & Services like Police, Water etc.

provide more opport. for off-campus people to come to campus

DON'T BECOME A "CEMENT CAMPUS" LIKE POMONA IS. KEEP THE GRASS, TREES & PLANTS FOR A BEAUTIFUL CAMPUS

More ways to find positive interaction between students and community ✓

More centralized & distinguished Campus Center

Commit to maintaining a green space buffer between campus and "quilt" neighborhoods.

More healthy/ fresh food & shady places to eat ✓✓

ZERO ENERGY GOAL!

Outdoor Learning Environments + Study Center Environmental Awareness

Let off campus people play/learn use rec space when not used. Allow them to park & enjoy campus
